Welcome to my third mail bid sale of fine numismatic literature. It is my sincere hope that each of you will find something of interest in the 1,500 lots comprising this offering. I would also like to take this opportunity to thank the nearly two hundred and fifty bidders who participated in my last sale and who helped to make it successful. Your continued support and patronage is most humbly appreciated.

I am pleased to be able to offer a varied and interesting assortment of material in this sale. A number of you have communicated with me in the past, requesting a larger selection of Foreign and Ancient works. While this offering does contain a bit more of this type of material than my previous sales, I still find it difficult to obtain large quantities of Foreign and Ancient books. If any of you have works covering this area of the hobby, and might be considering the disposal of your holdings, I welcome your communication regarding the sale or consignment of these items.

A few highlights of the present sale include a very fine copy of John H. Hickcox's 1858 opus, *AN HISTORICAL ACCOUNT OF AMERICAN COINAGE*; Theodore J. Venn's *LARGE U.S. CENTS* (1915); and an original 1916 edition of Ebenezer Gilbert's *THE UNITED STATES HALF CENTS*. There is also a fine copy of Sylvester S. Crosby's *EARLY COINS OF AMERICA*, published in 1875.

Foreign numismatics feature a very nice, nearly complete set of Spink's *NUMISMATIC CIRCULAR* from 1892 through 1965. The volumes from 1892-1939 are offered as a single lot, with the later series being offered individually by year. Other important offerings include Albert Schroeder's 1905 work, *DAI NAM HOA TE DO LUC/ANNAM ETUDES NUMISMATIQUES*; and George C. Miles's *THE COINAGE OF THE Umayyads of Spain*.

There are numerous United States auction catalogues and periodicals, along with a few important European catalogues, including the collections of Lord Northwick, Thomas Grogan and Fernand David.

Again, my sincere thanks for your past patronage, and the best of luck with your bids.

## TERMS OF SALE

1. This is an unrestricted mail bid auction sale. All lots will be sold to the highest bidder. Bids are to be entered by lot number as catalogued. Bidders should feel free to bid as much as they want, realizing that all bids are treated as limits, and that all lots will be sold below these limits when competition allows. At the same time, the cataloguer reserves the right to refuse totally ridiculous bids, or those bids which in his opinion are not entered in good faith. Closing date of this sale is Saturday, November 20, 1982. Bids will be accepted until 6:00 p.m. (P.S.T.) on this date. Phone bids will be accepted.

2. Prices estimated following each lot reflect the current market, and are intended solely as a guide to bidders. You may bid higher or lower as you wish.

3. California state sales tax of 6% will be added to the cost of all lots delivered within California unless a valid resale number is on file with us. Likewise, sales tax of 6½% will be added to the cost of all lots delivered within the Bay Area Rapid Transit District of the state of California.

4. Mail bid sales are not approval sales. By submitting your bids, you agree to all terms of sale stated herein. No lots may be returned without written permission, and all request for such permission must be made within three (3) days of receipt of lots. All books are as described. We do realize that there exists the possibility of errors and typographical mistakes. Any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; so please check your bid sheets carefully prior to submitting them.

5. Bidders unknown to us are requested to submit suitable credit references (trade references are acceptable), or a deposit equal to twenty-five percent (25%) of their total bids.

6. There is no charge for executing your bids. However, all successful bidders will be invoiced for all postage and insurance. In addition, there will be a fifty cent (50¢) charge per lot to cover handling and packaging.

7. Terms of this sale are strictly cash, payable in United States funds. Payment is due upon receipt of notification. Title to all lots remains with the cataloguer until paid for in full. We reserve the right to withhold delivery of lots until payment has been received.

8. As an aid to unsuccessful bidders, we will notify you within ten days after the sale that such bids were not successful. We realize that many, if not most, of our customers are also active in the overall coin market; and with the large number of coin auctions taking place, we feel it only appropriate to offer this notification so that your funds may be made available to you for other purposes. In cases where an unsuccessful bidder has placed a deposit with us, a refund check will accompany such notification.

9. Thank you for your participation in this sale, and the best of luck with your bidding.

541. *Spink & Son's., Numismatic Circular.* 1892-1939. Vols. I-XLVII. Virtually complete run of the first 47 volumes of this long lived and most informative journal. Last issue is January, 1939. Lacking only Aug., Sept., and Nov., 1938. Vols. I-XII bound in six pieces. Full crimson morocco gilt. Vols. XIII-Vol. XXI bound individually in quarter leather gilt. Vols. XXII-XLV bound individually in red and gray cloth and boards. Vols. XLIII-XLV bound individually in quarter leather gilt. The remaining ten issues, naturally, are unbound. For the most part, all of the bindings are generally quite sound. A couple of the early quarter leather volumes are chipped at the spine, but are not all the bad. It should be mentioned that, due to the large 4to size of these issues, they were folded when mailed by Spink, and therefore most exhibit two vertical creases, although they are rather light and not readily noticeable. The present offering affords an unusual opportunity for the serious bibliophile to acquire one of the classic journals in the numismatic field. Seldom is so complete a run offered and even more seldom in this fine state of preservation. C-S 319. **\$2,500.00**

**1424. Hall, C., Advertisement.** Russell Court, Feb. 1, 1774. 1 p., 3 engraved plates of coins. Unbound (disbound?). A very early advertisement picturing and describing coins of the Saxon series. Having not seen this item previously, and being quite unfamiliar with its origin or purpose, I therefore will reprint the entire text below:

*The Coins in the Annexed Plates are Exhibited as a Specimen of the Saxon Series, during the Heptarchy, both Regal & Ecclesiastical, the latter of which are offered, chiefly to convey to ye Young Collector, an Idea of that species of Coinages from its introduction to the suppression thereof, which seems to have been near the time of the Norman Conquest. The Coins No. 2, 3, 4, 7, 11, & 18 are of seven different Kings of Kent. Ethelbert is presumed to be the first Saxon prince who coined money, similar to the Gallic Coins of that age (probably from his marrying the daughter of Chilperick the French King). No. 5, 6 & 10 are from the West Saxon mintage, it seems most likely that the last six West Saxon Kings coined money, altho we cannot with sufficient certainty distinguish it. No. 8, 9, 12, 14, 15, 16, 17, 19 & 20 were the currency of the Mexican Kingdom, & the Coins No. 21 and 22 are appropriated to the Kingdom of the East Angles, as are No. 23, 24 & 25 to the Northumbrians, by several Eminent Antiquaries, tho the Coin Ericus No. 22, hath been lately joined to the Northumbrian Series, seemingly with great propriety by the Learned & Ingenious Author of the Assemblage of Saxon Coins, as there is one of these Coins minted at York, & another whose legend is ERIC.REX.N. We are in some doubt with regard to the right Arrangement of No. 21, as the Judicious Mr. Pegge conceives none were ever struck by the East Angles under their Heptarchial State (See assemblage &c, p. 21), Two curious and rare coins are omitted, one Inscribed SYCFRD &c, in the Possession of the Worthy Edw'd Solley, Esq'r. F. SA owing to there being a doubt to which Series it belongs & the other, the famous Gold Pembrochian Coin, because neither the Size nor Weight of it, have as yet been Ascertained. The Prelatical Series, hath been lately, so fully & clearly demonstrated by the Rev'd. Mr. Pegge in his Assemblage that nothing with propriety can be said on the Subject, unless it be to intimate that No. 27, 28, 29, 30, were from the Archiepiscopal Mint of Canterbury, No. 31, 32, & 33 That of York No. 26 & 34 from those of St. Edmunds & St. Pauls. The first Coins in the plate hath exercised the pens of so many able Antiquaries that it would be presumption, to offer any further Conjectures about it here, as it hath been deemed an invaluable Curiosity by most of them.*

Bit spotted and yellowed as might be expected. Worth?
